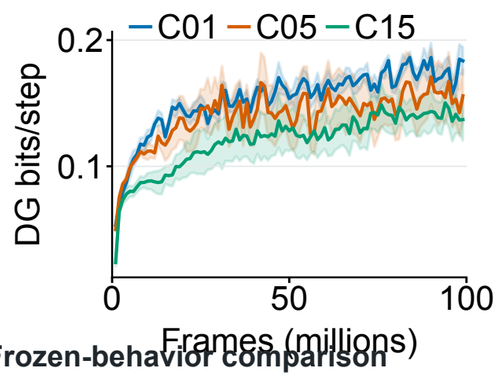

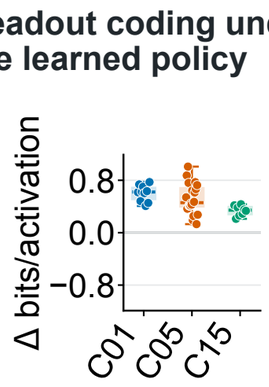

Figure 2 · box plots and other loose components

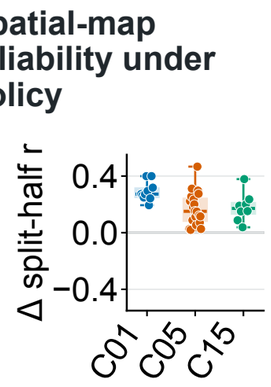

Grouped by intervention. + marks extra candidates; all box data axes are 0.68 × 0.774 in. Individual files are in components/.

Spatial emergence

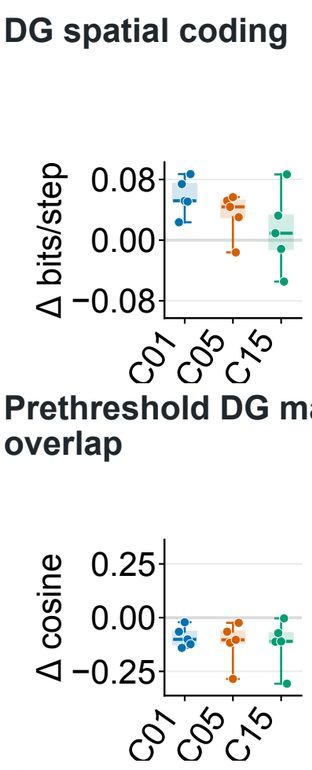

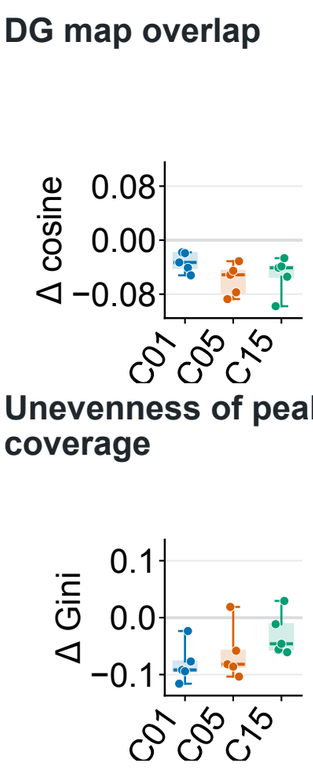

Frozen-behavior comparison

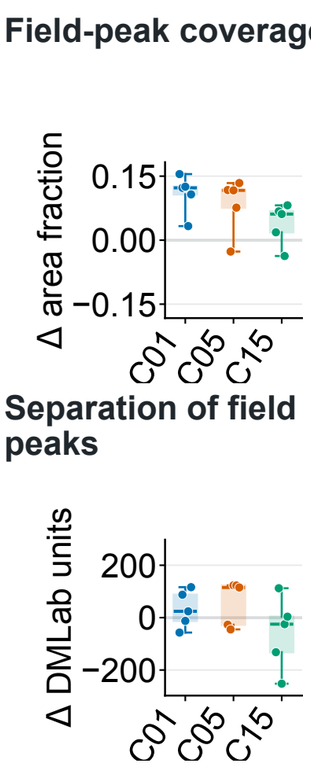

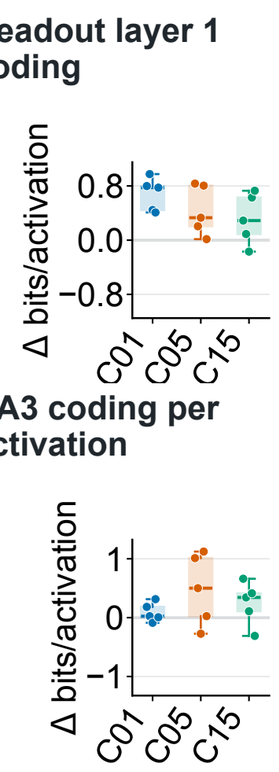

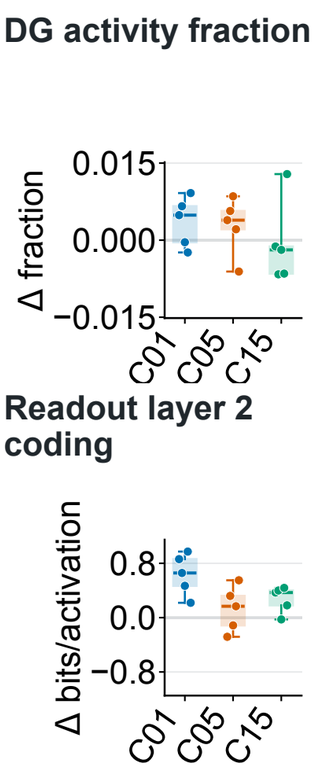

Push ablation · DG encoder credit

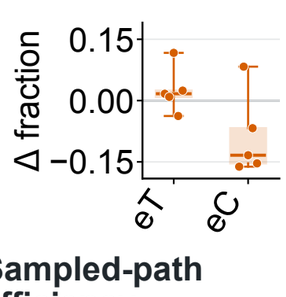

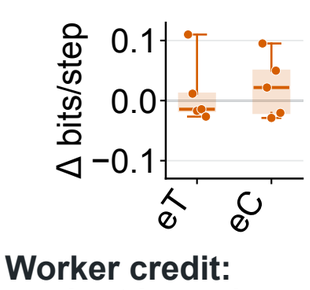

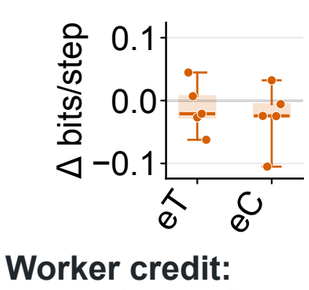

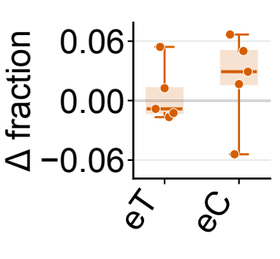

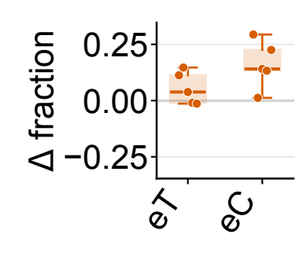

Pull ablation · worker credit

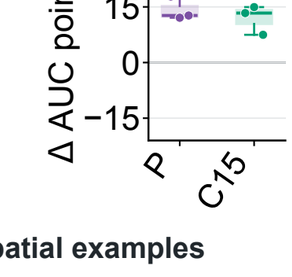

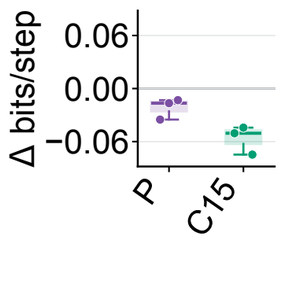

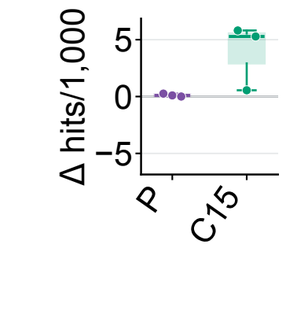

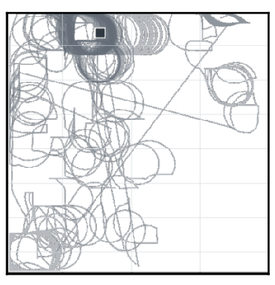

Longer PPO and GAE credit

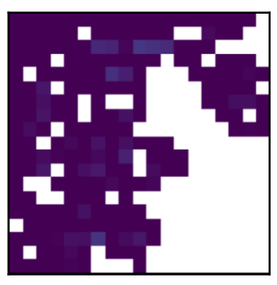

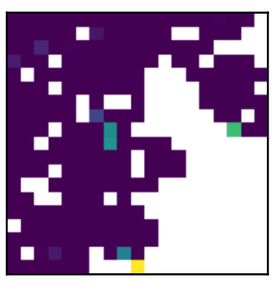

Spatial examples

Loose labels and key

A Spatial emergence

B Behavior shapes coding

C Spatial examples

D Temporal DG credit

E Downstream readout

F Worker and PPO credit
